

IC Data Exchange Training Workshop
May 12-14, 2003
Hyatt Regency Chicago
151 E. Wacker Drive
Chicago, Illinois

Purpose: The purpose of this Workshop was to discuss the Model Data Element Dictionary (DED) for IC Data Exchange to develop a common language related to ICs to provide information needed to protect human health and the environment. With that mission in mind, participants discussed potential data elements, their definitions, and data standards. There was also an optional meeting to discuss Geographical Information Systems and IC tracking on Wednesday afternoon.

Theme: IC Tracking “Tools and Rules”
